

Hydrafacial

Only HydraFacial uses patented technology to cleanse, extract, and hydrate. HydraFacial super serums are made with nourishing ingredients that create an instantly gratifying glow in just 3 steps:

CLEANSE + PEEL- Uncover a new layer of skin, with gentle exfoliation and relaxing resurfacing.

EXTRACT + HYDRATE- Remove debris from pores with painless suction and nourish the skin with intense moisturizers.

FUSE + PROTECT- Saturate the skin's surface with antioxidants and peptides to maximize your glow.

Signature HydraFacial - 35-40 minutes-

Includes pre-cleansing, Activ-4, GlySal Prep, Beta HD, Anti-Ox+ (6), Moisturizer and SPF. **\$199**

Deluxe Hydrafacial - 60+ minutes- Includes pre-

cleansing, Activ-4 choice of GlySal Prep, or GlySal MD, Beta HD, Anti-Ox+ plus an added booster and LED light treatment.

(Choice of ReGen-GF, Alastin, Dermbuilder, or Britenol). **\$249**

Platinum Hydrafacial 80- 90 minutes

The treatment continues with the **deluxe HydraFacial** addresses specific concerns with the booster of your choice. LED lights penetrate serums deep into the skins layers and promote anti-aging benefits, along with Lymphatic drainage treatment. **\$289**

Clinical Facials

The Skin Diagnostic Facial

A great place to start if you are new to skin care, have been neglecting your skin, or have questions about treatments or products! The Skin Diagnostic Facial is a combination facial treatment, and consultation, where your Medical Professional gets to know your skin and your concerns. You will leave with a written suggested treatment plan to help you achieve your best skin ever! This is a one-time service per patient.

60 minutes- \$90

60-minute Clinical Facial

A thorough cleansing, skin analysis, and enzyme treatment softens skin and removes dulling dead skin cells.

Specialized procedures, including extractions, are selected to address your skin's challenges.

A customized mask, serums, and UV protection finish out the facial leaving your skin balanced and glowing!

60 minutes - \$110 Additional Extractions- \$20

30-minute Clinical Facial

A double exfoliation that gives a deep polish and infuses nutrients into the skin. Suitable for most skin types, especially those with build up or dull, tired skin. **30-40 minutes - \$80**

Waxing

Brow wax/Shape- \$23

Lip- \$15

Chin- \$15

Chemical Peels

The application of a variety of treatment solutions that remove the outer layer of dead skin cells. Peels are extremely beneficial in treating, hyperpigmentation, acne, sun damage, and aging skin. Your medical professional will work with you to determine your best course of treatment.

Obagi Radiance peel- \$149

VI Precision Plus Peel \$265

Perfect Derma Peel- \$215

Perfect Derma Booster + \$40

*** Peel series- Purchase a 4-peel series and receive 15% off

Hair Restoration

PRP-PRF/Growth factors: *This is a specialized treatment that provides the scalp with autologous growth factors to restore lost hair and improve hair growth. We recommend a series of treatments for best results.*

HydraFacial Keravive Treatment: *this treatment will clean, hydrate the scalp, and deliver medical growth factors to improve hair strength and growth.*

Permanent Makeup

Microblading and Nanobrow *is a form of semi-permanent makeup. It uses a sterile blade or Pen to create a series of microneedles to apply pigment in realistic hair strokes to the brow.*

Combination Brow *is hair strokes in front of the brow with machine shading from the tail and blended forward.*

Powder Brow *is a technique done by a tattoo machine that appears light and powdery at the front of the brow and darkens towards the end. This creates a perfect make up look.*

Lip Blush *is a tattoo for your lips, that gives a soft water colored look, resulting in a more youthful appearance. This technique is natural looking with no harsh lines by using soft neutral lip colors.*

Lash Enhancement *adds definition to the eye without being a "makeup" look. A thin line of pigment that gives the appearance of darker and fuller lashes.*

Scalp Micropigmentation (SMP) *is a cosmetic treatment that can help create the appearance of hair in people with baldness or thinning hair. SMP uses a fine needle and ink to apply a tattoo of tiny dots to the scalp. This creates the appearance of short-cut hair.*

Specialty Skin Treatments

For specific pricing of treatment please call or email for more information or schedule a free consultation

Dermaplaning

Mechanical exfoliation of the face. Uses a sharp blade to remove the dead surface layer of skin and fine hair. Can be a separate treatment or as an add-on.

Manual Lymphatic Drainage Neck and Face

A light touch, therapy technique, which stimulates the removal of waste materials from the tissues. Benefits include: Accelerated skin healing and bolstering of the immune system

Laser Hair Removal

Removal of unwanted hair in any region of the body.

Superficial Blood Vessel Removal

Removing unwanted superficial blood vessels of the face or body. Using vasculotouch or medical laser.

Tattoo Removal

Removal of any unwanted tattoos or permanent makeup

IPL

Benefits of IPL treatment are several but typically is use to remove dark brown and red pigments from the skin of the face and body. Known as a photo-facial.

Erbium Skin Resurfacing

Treatment to remove superficial lines and wrinkles of the face, hands, neck, and chest area using laser resurfacing.

CO2/Fraxel Laser Skin Resurfacing

More aggressive laser treatment to remove deeper lines and wrinkles of the face, hands, neck, and chest area.

Fibroblast Pen

Non-surgical treatment to stimulate fibroblast proliferation in the skin to tighten wrinkled skin. A great method to remove skin tags and benign moles.

Microneedling

Micro-needling, or Collagen Induction therapy is performed using a hand piece that introduces a group of small needles into the skin. These micro injuries induce a wound healing response in the skin, stimulating collagen formation.

Micro-needling achieves skin improvements such as:

- **Smoothing fine lines and scars**
- **Skin tightening by stimulating collagen**

Radio-Frequency Microneedling (RFMN)

Achieves all the results of microneedling but to a greater degree by using RF energy within the needle tips to create additional skin tightening and smoothing of fine lines and wrinkles.

PRP-PRF – Growth Factors

This treatment is performed by drawing a patient's blood and collecting their own growth factors. These factors are then used to treat multiple areas of the body to improve health and appearance. Can be added on to most facial skin procedures.

Weight Loss Program

Weight loss coaching: *This includes a one-on-one consultation to discuss lifestyle modifications and coaching to improve the success of your weight loss journey.*

Lipotropic Injections: *medications that provide an energy and metabolism boost. These medicines can be added to any weight loss program to help achieve weight loss goals*

Semaglutide/Tirzepatide Injections: *these medications are a non-stimulant appetite suppressant that has been shown to reduce body weight by 15-18% in clinical trials.*

Phentermine: *this is a stimulant medication and works to suppress the appetite leading to improved weight loss.*

Body Shaping and Contouring

Spot Fat Reduction: *Using a solution to inject into unwanted fat in any area of the body. The fat will dissolve and the body will reabsorb over a span of 2-3 months.*

Emsculpt Neo: *This device uses heat and magnetic energy to reduce fat and increase muscle mass by 25% in most areas of the body.*

Hormone Replacement Program

Hormone imbalance can affect your quality of life. Symptoms such as fatigue, mood swings, weight fluctuations, lack of libido, hot flashes, depression, insomnia, skin/hair changes can all be signs that your hormones are not balanced.

Bioidentical Hormone Replacement: *This program starts with measuring your hormone levels and based on the results we can replace or balance those levels with the appropriate medication. Once the body gets back in balance it will improve your quality of life.*

Pelvic Floor and Vaginal Rejuvenation

Emsella: *utilizes electromagnetic energy to deliver thousands of supramaximal pelvic floor muscle contractions in a single session. Over 11,000 kegels in just 30 minutes and you can keep your clothes on! This device helps strengthen the pelvic floor and can reduce urinary incontinence or bladder leakage and improves sexual wellness.*

Phoenix Laser: *Using CO2 laser technology to provide nonsurgical treatment to the vagina. When gently inserted into the vagina the laser stimulates collagen production within the tissues. The influx of collagen rejuvenates the vaginal tissues so that the vagina becomes tighter and is better able to produce lubrication. The result is improved blood circulation to the vagina that makes sexual activity more enjoyable.*

Skin Treatment Plans

Just as with diet and exercise, your skin care is not a one and done treatment. Monthly treatments are the best way to reach your skin goals and maintain beautiful skin. We can create treatment plans tailored just for your skin to optimize the best results at the best price. Our Medical professionals will work with you to select the treatment and products best suited to maintain your in-office results.

Treatment plans are typically 3, 6, 9, or 12 months with reduced pricing depending on the plan. Also, monthly repayment plans are available during the duration of your treatment plan. Any treatment can be included on a treatment plan including injectables.
