### **Platinum Hydrafacial** 80- 90 minutes

The ultimate HydraFacial experience!

The detoxification process begins with Lymphatic Drainage.

Lymphatic Drainage stimulates the body's waste disposal system to remove toxins, and dead cells, while bathing the tissues with nutrient rich fluids.

The treatment continues with the **deluxe HydraFacial** protocol, to deeply cleanse, extract, and hydrate the skin. Specific concerns are addressed with the booster of your choice. LED lights penetrate serums deep into the skins layers and promote anti-aging benefits. **\$259**

Single Treatment: **\$259**

Series of 3: **\$699** (Save \$78)

Series of 6: **\$1321** (Save \$233)

Series of 9: **\$1865** (Save \$466)

## Specialty Skin Treatments

For specific pricing of treatment please call or email for more information or schedule a free consultation

### Dermaplaning

*Mechanical exfoliation of the face. Uses a sharp blade to remove the dead surface layer of skin and fine hair. Can be a separate treatment or as an add-on.*

### Laser Hair Removal

*Removal of unwanted hair in any region of the body.*

### Fibroblast Pen

*Non-surgical treatment to stimulate fibroblast proliferation in the skin to tighten wrinkled skin. A great method to remove skin tags and benign moles.*

### Microneedling

*Micro-needling, or Collagen Induction therapy is performed using a hand piece that introduces a group of small needles into the skin. These micro injuries induce a wound healing response in the skin, stimulating collagen formation.*

**Micro-needling achieves skin improvements such as:**

- **Smoothing fine lines and scars**
- **Diminishing pore size**
- **Skin tightening**
- **Improving skin texture, tone**

### PRP-PRF – Growth Factors

*This treatment is performed by drawing a patient's blood and collecting their own growth factors. These factors are then used to treat multiple areas of the body to improve health and appearance. Can be added on to most facial skin procedures.*

## Hair Restoration

**PRP-PRF/Growth factors:** *This is a specialized treatment that provides the scalp with autologous growth factors to restore lost hair and improve hair growth. We recommend a series of treatments for best results.*

**HydraFacial Keravive Treatment:** *this treatment will clean, hydrate the scalp, and deliver medical growth factors to improve hair strength and growth.*

## Permanent Makeup

**Microblading and Nanobrow** *is a form of semi-permanent makeup. It uses a sterile blade or Pen to create a series of microneedles to apply pigment in realistic hair strokes to the brow.*

**Combination Brow** *is hair strokes in front of the brow with machine shading from the tail and blended forward.*

**Powder Brow** *is a technique done by a tattoo machine that appears light and powdery at the front of the brow and darkens towards the end. This creates a perfect make up look.*

## Weight Loss Program

**Weight loss coaching:** *This includes a one-on-one consultation to discuss lifestyle modifications and coaching to improve the success of your weight loss journey.*

**Lipotropic Injections:** *medications that provide an energy and metabolism boost. These medicines can be added to any weight loss program to help achieve weight loss goals*

**Semaglutide Injections:** *this medication is a non-stimulant appetite suppressant that has been shown to reduce body weight by 10-15% in clinical trials.*

**Phentermine:** *this is a stimulant medication and works to suppress this appetite leading to improved weight loss.*

## Hormone Replacement Program

*Hormone imbalance can affect your quality of life. Symptoms such as fatigue, mood swings, weight fluctuations, lack of libido, hot flashes, depression, insomnia, skin/hair changes can all be signs that your hormones are not balanced.*

**Bioidentical Hormone Replacement:** *This program starts with measuring your hormone levels and based on the results we can replace or balance those levels with the appropriate medication. Once the body gets back in balance it will improve your quality of life.*

## Treatment Plans

Just as with diet and exercise, your skin care is not a one and done treatment. Monthly treatments are the best way to reach your skin goals and maintain beautiful skin. We can create treatment plans tailored just for your skin to optimize the best results at the best price. Our Medical professionals will work with you to select the treatment and products best suited to maintain your in-office results.

Treatment plans are typically 3, 6, 9, or 12 months with reduced pricing depending on the plan. Also, monthly repayment plans are available during the duration of your treatment plan. Any treatment can be included on a treatment plan including injectables.
